**Subject:** Submission from <https://action.forestandbird.org.nz/tewaikoropupu/>

**My submission:**

I support the Forest & Bird submission to grant the application. In particular I support measures for the wider catchment which will protect:

- the water clarity and purity
- the scientific, ecological and biodiversity values
- habitat for indigenous flora and fauna
- cultural values
- wild, scenic and natural characteristics

My submission relates to all of the application. I support the application. I seek that the Special Tribunal recommends granting the order to the Minister of the Environment. I do not want to present my views at the public hearing.

It's incredibly important that the Hearing Panel understand your personal views about Te Waikoropupū Springs. Please tell them below what's important to you::	The prevalence of these destructive farming techniques is abhorrent and you should be ashamed to even consider this. Your politics are fuelled by greed and fear for your position of power, you are cowards. There will come a day when New Zealand is represented for its people and her iwi not the back pockets of New Zealand's bourgeois. you cannot do this to one of the purest most beautiful places in the region we must stop this short sighted attitude to our economy and environment . New Zealand has an incredibly delicate set of ecosystems and these foreign and harmful practices are our generations equivalent to the possum and stote populations that were introduced years ago. You must do some thing you are the only ones who can
