Notes

I support the Forest & Bird submission to grant the application. In particular I support measures for the wider catchment which will protect: the water clarity and purity, the scientific, ecological and biodiversity values, habitat for indigenous flora and fauna, cultural values, wild, scenic and natural characteristics. My submission relates to all of the application. I support the application. I seek that the Special Tribunal recommends granting the order to the Minister of the Environment. I do not want to present my views at the public hearing.

Notes

Places of healthy water need to be protected. We have lost too many already in Aotearoa. The state of our freshwater is shocking and shows years of neglect and denial about the need for developing better management and protective measures. I want healthy water, I want habitats for indigenous flora and fauna - I want the spiritual qualities that healthy water systems bestow on human and freshwater life.

Clause

I/we seek the following recommendation from the Special Tribunal to the Minister for the Environment

Position

Grant the order
