Subject: Submission from <https://action.forestandbird.org.nz/tewaikoropupu/>

My submission:

I support the Forest & Bird submission to grant the application. In particular I support measures for the wider catchment which will protect:

- the water clarity and purity
- the scientific, ecological and biodiversity values
- habitat for indigenous flora and fauna
- cultural values
- wild, scenic and natural characteristics

My submission relates to all of the application. I support the application. I seek that the Special Tribunal recommends granting the order to the Minister of the Environment. I do not want to present my views at the public hearing.

It's incredibly important that the Hearing Panel understand your personal views about Te Waikoropupū Springs. Please tell them below what's important to you::	This is such a stunning place, it needs to be protected at all costs! Animal agriculture is destroying this country and I don't care if it has held up the economy historically - we cannot be complacent and let more intensive irrigation and dairying occur. We need to protecting the environment for the only long term income generator we have - tourism. Tourists don't want to see cows in paddocks as they drive around. The river I grew up swimming in is now too polluted to swim in, and it's happening to more and more places. We all need to wake up and accept that dairy farming cannot be our future.
