as we all know the earths resources are being plundered and misused to benefit a few people (corporations) who want to make more money. This neo liberal mind set that puts money and profit before the good of all people is nothing but destructive. And here we are in little Takaka where a few people feel that they have the right to misuse another pristine resource to the detriment of the whole community and an incredibly precious water resource to benefit their own pockets. Why is this even a discussion? Isn't it blatantly obvious that this view is wrong? I support Forest & Bird in this submission to protect the Te Waikoropupu Springs.

## **Clause**

I/we seek the following recommendation from the Special Tribunal to the Minister for the Environment

## **Position**

Grant the order
