

Water Conservation Order: Te Waikoropupū Springs and Associated Waterbodies

Submission Reference no: 1271

Lorraine, Lorraine Richardson

Submitter Type: Individual

Source: Web Form

Overall Notes:

Clause

What is/are your view/s on the application?

Position

Oppose (Please provide the reasons why with reference to section 199 and 207 of the RMA)

Notes

Te Waikoropupū Springs is the natural environment for Flora and Fauna of Aotearoa. It needs to be preserved as a natural spring and left alone as part of the water cycle which maintains the survival of the plants and creatures that live in the environment. Taking water from the spring will change the pressure and depth of water changing the balance in the biome slowly killing the environment which in turn will kill the tourism that the Spring brings in.

Clause

I/we seek the following recommendation from the Special Tribunal to the Minister for the Environment

Position

Decline the order

Notes

Granting this order is environmental rape and destruction of the biome for future generations.

Clause

Would you like to present your views on this submission to the Special Tribunal at a public hearing?

Position

I/we do not want to present my/our views at a public hearing

Notes
