Notes

When I was young in the 1970s and going camping with my family around the South Island we could stop and drink pure water from any creek, stream or river, you took it for granted that there was no risk. It even never occurred to us that waterways would be contaminated Now there are so few waterways that can be class as pure, with farm runoff, increase algae growth and low flows are waterways are in crisis. Please treat Te Waikoropupu Spring as precious beyond value, protect it.
