Position

I am submitting on specific parts of the plan change (please detail below).

Notes

14.6 Rural Land Use

Clause

The specific part(s) of the matter that my submission relates to are:

Notes

14.6.1 Permitted activities: The Bannockburn area feels the 100 hectares puts to much restriction on pastoral farming as these farmers need the extra land to grow crops for winter feed to feed stock through the winter months.

Clause

What is your view on the matter or the specific parts listed above? Please select one, if you have multiple views state clearly in the notes box below.

Position

Oppose

Notes

These high country runs need areas to grow these crops. These policies need to distinguish between high country farming practices, and flat land dairy farming, there is a very large difference.

Clause

The reasons for my views are:

Notes

Bannockburn has no dairying, and the farming methods used in this area area very environmentally friendly. And all farmers respond to the present rules in place now.

Clause

What decision would you like the Environment Court to make?

Position

Approve the plan change with amendments

Notes

Approve the plan change with amendments to the points i have raised above.

Clause

The reason(s) for my view and/or any amendment(s) I am seeking are:

Notes

The restriction of 100 Hectares of area to be in crop at one time is to small and area as some farms would have more than this,

at one time. Also i believe that the NPS restricts cultivation on slopes greater than 10 degrees, is this so.
