Signature not required if you make your submission by electronic means)

**Please note that all submissions are made available for public inspection.**

**State what your submission relates to and if you support, oppose, or want it amended:**

(e.g. support rule 'x', or amend policy 'y')

The effect of a 6 year consent will be onerous on all parties. Farmers prefer to work in long term strategies and 6years will not allow them to do this as it creates investment uncertainty. It does not allow for the investment in water storage and improving efficiency of water use.

Irrigation area curtailment does not allow for future growth. Based on the 2017 2018 years usage no account has been taken of breakdowns , other farming conditions or climate.

Fish passage needs further investigation.It is one of the problematic conditions of the Kyeburn Catchment consent..

One size fits all approach does not work. ....

.....

.....

.....

.....

.....

**State what decision you want the Otago Regional Council to make:**

(e.g. amend policy 'y' to say.....)

The ORC needs to provide reliable and accurate science to justify the policies they have chosen to promote.....

.....

.....

.....

.....

.....

.....

**Give reasons for the decision you want made:**

(e.g. I want policy 'y' changed because...)

While setting this policy I hope that thought has been given also to process. Kyeburn Catchment spent 10 yrs gaining their consent at a huge cost to the community.....
