Clause

The specific parts of the plan change that my submission relates to are:

Notes

7.C.6 (b) I would like to strike out 'Promoting' and replace with ' Requiring' The insertion of the word 'requiring' will give a clearer and stronger effect to the Policy. I am supported in this matter under EXPLANATION where the word 'encourage' has been struck out and replaced with 'required' 13.5.1.8A I strongly DISAGREE that this matter should be a permitted activity. No livestock should be allowed on the bed of any lake or river, or any Regional Significant Wetland. 13.5.1.8A (b) Stock Access to Water I seek clarification on Definition and Explanation of DAIRY CATTLE "Cattle farmed for milk production. This includes dairy cows, weaned and un-weaned calves of dairy cows, and non milking dairy cattle such as young stock and bulls" I seek clarification of BULLS Does the definition refer only to BULLS found on Dairy farms or also BULLS that are fattened for meat? BULL calves are sold off from Dairy Farms and are farmed on BULL fattening units elsewhere. These BULLS are contained in paddocks and are fattened using intensive farming systems. These BULLS should be included in the 2022 Stock Access to Water exclusion. Furthermore, for reasons of safety, BULLS should be excluded from roaming river margins. I note BEEF CATTLE will be excluded on 1 July 2025.
