The reason(s) for my views are:

Notes

It is with major concern that these conditions and rules are unworkable on an extensive sheep and beef cattle property. Our property is neighbored DOC and Forestry where large quantities of deer and pigs use the waterways freely. 13.5.1.8A (b) states all dairy cattle and pigs are excluded... Will DOC keep their pigs out of waterways. Implementation is impracticable as much of the country is steep and hard to access. Fencing is also mostly impracticable because of the terrain. Grazing of winter crops from top down has serious animal welfare issue on our sort of country as natural shelter is very important to us for stock to access shelter.
