**Subject:** Anonymous User completed Submission Form – Proposed Water Permits Plan Change (Plan Change 7) to the Regional Plan: Water

Anonymous User just submitted the survey 'Submission Form – Proposed Water Permits Plan Change (Plan Change 7) to the Regional Plan: Water' with the responses below.

**Full name of submitter**

Lynne Stewart

**Name of organisation (if applicable)**

ORC rate payer , mother wanting to leave a better environment for my children and grandchildren to inherit.

**Email**

[Redacted]

**Postal Address (or alternative method of contact)**

[Redacted]

**Phone number**

[Redacted]

**Do you wish to be heard in support of your submission?**

*(Being 'heard' means speaking at a hearing)*

No

**Could you gain an advantage in trade competition from this submission?**

No

**Are you directly affected by an effect of the plan change that:**

- a) adversely affects the environment; and
- b) does not relate to trade competition or the effects of trade competition

I am not

**State what your submission relates to and if you support, oppose, or want it amended:**

*(e.g. support rule 'x', or amend policy 'y')*

Plan change 7 should not be delayed. Water in Central Otago's rivers is over-allocated at present and we need to leave enough water in each of our rivers to support indigenous fish life. We should not take longer to make the necessary water permits that take less water from our rivers.

**State what decision you want the Otago Regional Council to make:**

*(e.g. amend policy 'y' to say....)*

I do not want Plan Change 7 delayed. I do not want more water being taken from our rivers and more centre pivot irrigators watering more paddocks for more dairy cows and slowing down implementation of Plan Change 7.

**Give reasons for the decision you want made:**

*(e.g. I want policy 'y' changed because...)*

Clean Water is Life. ORC has left our river water over allocated for too long . Native fish have died from the lack of water and the chemicals in it. My children have been violently sick from water poisoning (having ingested it while kayaking ):
