

Additives, Process Chemicals and Raw Materials (Acutely Toxic, Carcinogenic) Group Standard 2020

HSR002504

GROUP STANDARD

UNDER THE HAZARDOUS SUBSTANCES AND NEW ORGANISMS ACT 1996

Additives, Process Chemicals and Raw Materials (Acutely Toxic, Carcinogenic) Group Standard 2020

Pursuant to [section 96B](#) of the Hazardous Substances and New Organisms Act 1996 (the Act), the Environmental Protection Authority issues this Group Standard.

Contents

1.	Name of Group Standard	1
	HSNO Approval Number	1
2.	Commencement	1
3.	Interpretation	1
4.	Scope of Group Standard	1
	Substances covered by Group Standard	1
	Substances excluded from Group Standard	2
5.	Conditions of Group Standard	3
	Schedule 1: Conditions of Group Standard	4
	Part 1 - Compliance with EPA Notices	4
1.	Labelling and advertising	4
2.	Safety data sheets	4
3.	Packaging	4
4.	Disposal	4
5.	Restriction on supply, storage and use	4
	Part 2 - Notification to the Authority	4
6.	Inventory of Chemicals	4
	Part 3 - Other Matters	5
7.	Assigning a substance to a group standard	5
	Schedule 2: Interpretation	6
	Explanatory note	7

1. Name of Group Standard

Additives, Process Chemicals and Raw Materials (Acutely Toxic, Carcinogenic) Group Standard 2020

HSNO Approval Number

The HSNO Approval Number for this Group Standard is HSR002504.

2. Commencement

This Group Standard comes into force on 30 April 2021.

3. Interpretation

- (1) In this Group Standard, unless the context otherwise requires, words and phrases shall have the meanings given to them in Schedule 2. Any words or phrases that are used but not defined in this Group Standard but that are [defined in the Act](#) have the same meaning as in the Act.
- (2) In this Group Standard, reference to a hazard classification means a reference to the specified hazard classification as set out in the Hazardous Substances (Hazard Classification) [Notice 2020](#).

4. Scope of Group Standard

Substances covered by Group Standard

- (1) This Group Standard applies to hazardous substances under [section 96B\(2\)\(a\), \(b\) and \(c\)](#) of the Act.
- (2) This Group Standard applies to solid or liquid substances that are imported or manufactured for use as an additive, process chemical or raw material.
- (3) A substance referred to in subclause (2) must have:
 - (a) one or more of the hazard classifications listed in column 1; and
 - (b) one of the hazard classifications listed in column 2.

Column 1	Column 2
(a) acute oral toxicity Category 2	(a) carcinogenicity Category 1
(b) acute dermal toxicity Category 2	(b) carcinogenicity Category 2
(c) acute inhalation toxicity Category 2	
(d) acute oral toxicity Category 3	
(e) acute dermal toxicity Category 3	
(f) acute inhalation toxicity Category 3	

- (4) In addition to the hazard classifications referred to in subclause (3), a substance may have any of the following (but only the following) hazard classifications:
- (a) acute oral toxicity Category 4:
 - (b) acute dermal toxicity Category 4:
 - (c) acute inhalation toxicity Category 4:
 - (d) skin irritation Category 2:
 - (e) serious eye damage Category 1:
 - (f) eye irritation Category 2:
 - (g) respiratory sensitisation Category 1:
 - (h) skin sensitisation Category 1:
 - (i) germ cell mutagenicity Category 1 or Category 2:
 - (j) reproductive toxicity Category 1 or Category 2:
 - (k) effects on or via lactation:
 - (l) specific target organ toxicity – single exposure Category 1, Category 2 or Category 3:
 - (m) specific target organ toxicity – repeated exposure Category 1 or Category 2:
 - (n) aspiration hazard Category 1:
 - (o) hazardous to the aquatic environment acute Category 1:
 - (p) hazardous to the aquatic environment chronic Category 1, Category 2, Category 3 or Category 4:
 - (q) hazardous to soil organisms:
 - (r) hazardous to terrestrial vertebrates:
 - (s) hazardous to terrestrial invertebrates.
- (5) The hazard classifications listed in subclause (4)(q), (r) and (s) only apply to substances that meet the definition of agrichemical.

Substances excluded from Group Standard

- (6) This Group Standard excludes any substance if it contains—
- (a) asbestos; or
 - (b) a chemical that:
 - (i) is a persistent organic pollutant within the definition in [section 2](#) of the Act; or
 - (ii) exhibits the characteristics of a persistent organic pollutant as set out in paragraph 1 of Annex D to [Schedule 1AA](#) of the Act.
- (7) This Group Standard excludes—
- (a) pesticide actives and formulated pesticide products; and
 - (b) veterinary medicine actives and formulated veterinary medicine products

- (8) This Group Standard excludes any substance that contains a chemical that is a CMR that is not listed on the [Inventory of Chemicals](#), unless—
 - (a) the new CMR is used to completely replace an existing CMR in the substance; and
 - (b) the new CMR has a lower hazard classification than the existing CMR.
- (9) This Group Standard excludes any substance that is a hazardous chemical not listed on the [Inventory of Chemicals](#).
- (10) For the purposes of subclause (9), “chemical” means any element or compound in its natural state or obtained by any production process, including any impurities and any additive necessary to preserve the stability of the chemical but excluding any solvent which may be separated without affecting the stability of the chemical or changing its composition.

5. Conditions of Group Standard

The conditions that specify the obligations and restrictions for substances covered by this Group Standard are set out in Schedule 1.

Advisory Note: In addition to requirements specified in this document, people who are undertaking work in a workplace involving hazardous substances covered by this Group Standard have obligations under the [Health and Safety at Work Act 2015](#).

Schedule 1: Conditions of Group Standard

Part 1 - Compliance with EPA Notices

1. Labelling and advertising

Substances covered by this Group Standard must comply with the relevant provisions of the Hazardous Substances (Labelling) [Notice](#) 2017.

2. Safety data sheets

Substances covered by this Group Standard must comply with the relevant provisions of the Hazardous Substances (Safety Data Sheets) [Notice](#) 2017.

3. Packaging

Substances covered by this Group Standard must comply with the relevant provisions of the Hazardous Substances (Packaging) [Notice](#) 2017.

4. Disposal

Substances covered by this Group Standard must comply with the relevant provisions of the Hazardous Substances (Disposal) [Notice](#) 2017.

5. Restriction on supply, storage and use

Substances covered by this Group Standard must comply with the relevant provisions of the Hazardous Substances (Hazardous Property Controls) [Notice](#) 2017.

Part 2 - Notification to the Authority

6. Inventory of Chemicals

- (1) When a substance is imported into, or manufactured in, New Zealand after 30 June 2006, the importer or manufacturer must ensure that all hazardous chemicals contained in the substance are listed on the [Inventory of Chemicals](#).
- (2) If that substance contains a hazardous chemical that is not listed on the [Inventory of Chemicals](#), then the importer or manufacturer of the substance must at the time they first import or manufacture the substance, notify the Authority in writing of—
 - (a) the name of the substance; and
 - (b) the HSNO approval number and/or title of the group standard under which the substance is deemed to have been approved; and

- (c) the name and CAS number of the chemical not listed on the [Inventory of Chemicals](#) that is present in the substance; and
 - (d) the concentration of that chemical in the substance; and
 - (e) the hazardous properties of the chemical, including the provision of the relevant hazard data used to assign the substance to the group standard; and
 - (f) the proposed use of the substance.
- (3) Subclause (2) applies subject to clause 4(8) - (10) of this Group Standard (Scope of Group Standard).

Part 3 - Other Matters

7. Assigning a substance to a group standard

- (1) If an importer or manufacturer considers that this Group Standard applies to the importation or manufacture of a substance, then the importer or manufacturer is responsible for assigning the substance to this Group Standard.
- (2) In order to assign the substance to this Group Standard, the importer or manufacturer must—
 - (a) ensure that the substance complies with clause 4 of this Group Standard (Scope of Group Standard); and
 - (b) keep a record of how it was determined the substance complies with clause 4 of this Group Standard.
- (3) The importer or manufacturer must—
 - (a) ensure that the record contains sufficient information to allow for independent verification that the substance complies with clause 4 of this Group Standard (Scope of Group Standard); and
 - (b) have that record available for inspection.

Schedule 2: Interpretation

Act means the [Hazardous Substances and New Organisms Act 1996](#)

additive means any material added to another chemical or mixture of chemicals to change, improve or enhance its properties, characteristics or performance and includes process regulators, preservatives and surface-active agents

agricultural chemical has the same meaning as in the Hazardous Substances (Hazard Classification) [Notice 2020](#)

asbestos has the same meaning as in [regulation 3\(1\)](#) of the Health and Safety at Work (Asbestos) Regulations 2016 but does not include substances that contain naturally occurring traces of asbestos

CAS number means [Chemical Abstract Services Registry number](#)

CMR means a substance that is a carcinogen, mutagen or reproductive toxicant within the meaning of the GHS

condition means any obligation or restriction imposed upon a substance by a group standard

GHS has the same meaning as in the Hazardous Substances (Hazard Classification) [Notice 2020](#)

intermediate means a material created during the manufacture of a product, that may or may not be isolated or stored before being used or consumed in the subsequent manufacture of a product

Inventory of Chemicals means an [inventory](#) kept and maintained by the Authority of chemicals known to be present in New Zealand

pesticide includes but is not limited to, a product intended for use as an acaricide, antifouling paint, antistain, avicide, fumigant, fungicide, insecticide, herbicide, miticide, molluscicide, piscicide, timber treatment preservative or vertebrate toxic agent

preservative means any material used to prevent decomposition due to chemical change or microbial action, or to prevent microbial growth but does not include a pesticide

process chemical means any material used to assist in the manufacture of a product with the appropriate processing equipment and machinery, for analytical, separation and purification purposes. Process chemicals do not form part of the final product

process regulator means any material used to regulate the speed of a chemical process

raw material means any material used in the manufacture of a product, and includes intermediates

substance means any solid or liquid additive, process chemical or raw material that is within the scope of clause 4 of this Group Standard (Scope of Group Standard)

surface active agent means any material used to lower the surface and/or interfacial tension of a liquid

veterinary medicine has the same meaning as in [section 2\(1\)](#) of the Agricultural Compounds and Veterinary Medicines Act 1997

workplace has the same meaning as in [section 20\(1\)](#) of the Health and Safety at Work Act 2015

Explanatory note

This note is not part of the group standard but is intended to provide guidance to users of the group standard.

- (1) Typical substances covered by this Group Standard include but are not limited to—
- absorbents and adsorbents;
 - accelerators;
 - activators;
 - anti-condensation agents;
 - antioxidants;
 - anti-set-off anti-adhesive agents;
 - anti-siccatives;
 - anti-static agents;
 - binders;
 - biocides;
 - bleaching products and agents;
 - catalysts;
 - chain reaction inhibitors;
 - complexing agents;
 - conductive agents;
 - cross-linking agents;
 - defoamers;
 - dispersants;
 - fillers;
 - flame retardants;
 - flocculants;
 - foaming agents;
 - inhibitors;
 - initiators;
 - monomers;
 - oxygen scavengers;
 - photo-initiators;
 - pH-regulation agents;
 - pre-polymers;
 - preservatives;
 - promoters;
 - reducing agents;
 - reprographic agents;
 - scrubbing agents;
 - siccatives;
 - softeners;
 - stabilizers;
 - surfactants;
 - viscosity adjustors/rheology modifiers;
 - vulcanising agents.
- (2) Under the Act, [section 96E\(3\)](#) provides that a hazardous substance to which [section 96B\(2\)\(a\)](#) applies is deemed to have been approved by the Authority under [section 29](#).
- (3) All amendments made under [section 96B](#) to the Additives, Process Chemicals and Raw Materials (Toxic [6.1 + 6.7]) Group Standard 2017 since it was first issued that were still in force before 30 April 2021 have been incorporated into this Group Standard.
- (4) In addition to requirements specified in this document, people who are undertaking work in a workplace involving hazardous substances covered by this Group Standard have obligations under the [Health and Safety at Work Act 2015](#).
- (5) Each of the Labelling, Safety Data Sheets and Packaging [Notices](#) provide that a person relying on this Group Standard will have four years (until 30 April 2025) to comply with the relevant controls under those Notices. Within that time, a person must comply with one of the following:
- (a) the relevant controls under the Labelling, Safety Data Sheets and Packaging [Notices](#); or

- (b) the equivalent conditions in the Additives, Process Chemicals and Raw Materials (Toxic [6.1 + 6.7]) Group Standard 2017 in force immediately before 30 April 2021; or
- (c) the equivalent conditions in the Additives, Process Chemicals and Raw Materials (Toxic [6.1 + 6.7]) Group Standard 2006 in force immediately before 1 December 2017.

All other aspects of this Group Standard apply from 30 April 2021.

Level 10, 215 Lambton Quay, Wellington 6011, New Zealand
