Good news.

Further to all this I have had it confirmed this morning that 600 Maddisons Rd has been purchased for ODP subdivision development and that the owner has instructed his consultant (Nigel Williams) to work through the roading issues with Council – including the northern realignment of East Maddisons Rd onto Goulds Rd. You can then just concentrate on the southern related requirements – as I now have the confidence that the northern ones will be worked out too by those parties best placed to do so.

Hi Andrew

That was the arrangement we tabled with you last time.

Can you confirm the minimum distance required from the edge of the roundabout to a potential cross leg?

Cheers

Andy

Hi guys – this is not what I had envisaged or advised. Remember both Goulds and East Maddison Rd are/will be collector type roads (and all related intersections) – what you have shown is not what I consider fit for purpose – it's a bit tin pot. The ODP shows what we are intending - and the realignment needs to occur south of that existing house or thereabouts.

Mark are you coming past so I can discuss this directly.

Thanks

Andrew

Dear Andrew
Please refer to the attached plan
This is the area shown highlighted that we are doing the estimate for.
Please come back to me with any concerns

Cheers
