

# Application for Resource Consent

## Under clause 2(1) of Schedule 6 of the COVID-19 Recovery (Fast-track Consenting) Act 2020

This form is to be used to apply for a resource consent(s) for listed projects and referred projects under clause 2(1) of Schedule 6 to the COVID-19 Recovery (Fast-track Consenting) Act 2020 (“the Act”). If the project also includes a Notice of Requirement please also complete the separate Notice of Requirement form.

All legislative references relate to the COVID-19 Recovery (Fast-track Consenting) Act 2020 unless otherwise stated.

Resource consent applications cannot be lodged with the EPA or determined by a panel if they relate to an activity that:

- is classified as a prohibited activity in a relevant plan or proposed plan, or in regulations made under the Resource Management Act 1991 (including any national environmental standard); and
- is to occur within a customary marine title area, unless agreed in writing with the appropriate customary marine title group.

The information required for resource consent applications are prescribed in clauses 9-12 of Schedule 6 of the Act.

Your application must:

- Include the information required (which is listed in the Resource Consent Application checklist on this form); and
- Comply with any restrictions or obligations, such as any information requirements included in Schedule 2 or 3 of the Act, as applicable.

The information you provide must be in sufficient detail that corresponds with the scale and significance of the effects that the activity may have on the environment, taking into account any proposals to manage the adverse effects through conditions. If these information requirements are not met, the Environmental Protection Authority (EPA) must return your application.

If the project is planned to proceed in stages, please provide details of the nature and timing of the staging and indicative lodgement dates for each stage. Note that a new application should be lodged for each separate stage.

We recommend that you discuss your application with the EPA before lodging the application. Please contact the EPA:

By phone: 0800 080 065; or

By Email: [fasttrack@epa.govt.nz](mailto:fasttrack@epa.govt.nz)

Applications must be submitted to the EPA by email [fasttrack@epa.govt.nz](mailto:fasttrack@epa.govt.nz) and in hard copy (six hard copies required). Hard copies are to be sent to the Environmental Protection Authority, Level 10, 215 Lambton Quay, Wellington.

Please also provide one copy of a redacted version (clearly labelled) that does not disclose personal contact details for you (the applicant) and any other individual, including persons identified as owners or occupiers of land or affected persons.

If your application includes or is for a coastal permit to undertake an aquaculture activity, an additional copy of the application documents must be included for the EPA to provide to the Director-General of the Ministry for Primary Industries.

All documents lodged with this application, must be indexed.

Electronic documents shall be separated into smaller files less than 30MB.

Your personal and company information will be held by the EPA and used in relation to this application. You have the right to access and correct personal information held by the EPA.

If your application is accepted as complying with the requirements of clause 3 of Schedule 6 of the Act, it will be provided to specified parties invited to comment by the expert consenting panel. Any personal contact details (phone number, address and email) including any owners and occupiers listed in application documents, will not be made publicly available.

Your full application (including business contact details) will be publicly available on our website.

All information held by the EPA is subject to the Official Information Act 1982.

We will recover from you the actual and reasonable costs incurred in respect of this application. We may suspend processing your application for non-payment of costs. A copy of the EPA Cost Recovery Policy is available on the EPA website: <https://www.epa.govt.nz/fast-track-consenting/making-an-application/>

## Part 3: Brief description of the application

Please provide a brief description of the application and the consents sought:

Attach additional pages if required

Waka Kotahi NZ Transport Agency (Waka Kotahi) are seeking resource consents and issuing two Notices of Requirement (NOR) for Stage 1B1 of the State Highway 1 (SH1) Upgrades Project between Papakura and Bombay (P2B) project. The P2B project is a Waka Kotahi project to improve the capacity and functionality of SH1 and provide for long term growth in the south of Auckland.

The geographic location of Stage 1B1 of P2B ('the Project') is between the Papakura Interchange to south of the Drury Interchange (Quarry Road). The area between north of Otūwairoa (Slippery Creek) Bridge and Bremner Road Bridge is excluded from the Project and will be consented separately in Stage 1B2.

The Project involves a range of works including installing a Shared Use Path, widening SH1 so there is an additional lane in each direction, demolition and replacement of bridges and a range of stormwater management works. Please refer to Section 2 of the Assessment of Environmental Effects (AEE) attached for a full description of the proposed works.

As such, Waka Kotahi are seeking the necessary Regional and District Resource Consents required for the construction and operation of the Project pursuant to the COVID-19 Recovery (Fast-Track Consenting) Act 2020, National Environmental Standard for Assessing and Managing Contaminants in Soil to Protect Human Health 2014, National Environmental Standards for Freshwater 2020 and the Auckland Unitary Plan (Operative in Part 2016). For a full list of the Regional and District Resource Consents being applied for, please refer to Section 3.1. of the attached AEE.

## Part 5: Description of inquiries made to identify occupiers

**Please explain what reasonable inquiries were made to identify the occupiers of the land on which the project is to be undertaken and the land adjacent to that land.**

Attach additional pages if required

The P2B project team has directly engaged with the owners of sites from which land acquisition is required. Letters were initially sent and then landowner meetings began in late June 2019. As detailed design progressed for the Project and the specific impact on each individual property has become clearer, additional meetings have been/are being held with those affected landowners to inform them of the emerging design, understand their situation and work where possible to address any concerns they may have before finalising the design. For the P2B project team, these meetings were generally attended by representatives of the Waka Kotahi Property team, the Waka Kotahi Engagement & Partnerships team, the Aurecon design team and (if relevant) the Aurecon stormwater team.

The P2B project team has also met with landowners whose driveway access may need to be altered as part of the Project.

In addition to those 'adjacent' parties, Waka Kotahi have sought the names of occupants through letters sent to identified adjacent sites. Given the scale of engagement throughout the Project, it is considered that reasonable enquiries have been made to identify and engage with the adjacent owners and occupiers.

Further information on consultation and engagement can be found in Section 5.1 and 5.3 of the attached AEE.

## Part 6: Is this application part of a project planned to proceed in stages?

Yes (see below)

No

**If the project is planned to proceed in stages, please provide details of the nature and timing of the staging and indicative lodgement dates for each stage. Note that a new application should be lodged for each separate stage.**

Attach additional pages if required

The P2B project extends 16.6 kilometres from approximately 1.3km north of the Papakura Interchange (from the end of the Southern Corridor Improvements) to approximately 600 metres (m) south of the proposed Bombay/Mill Road interchange.

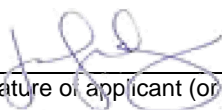

The P2B project is intended to be delivered in five stages consisting of Stage 1A, Stage 1B1 (the subject of this application), Stage 1B2, Stage 2 and Stage 3. Stage 1A has already been consented under the RMA and this application is only related to Stage 1B1. Design and consent preparation for Stage 1B2 and Stage 2 is underway during which the appropriate consenting pathway will be confirmed.

For further information on the staging of P2B please refer to Section 2 and Appendix B of the attached AEE.

## Part 7: Signature

I hereby certify that, to the best of my knowledge and belief, the information given in this application is true and correct, and that I am authorised to make this application.

I understand that the EPA can recover actual and reasonable costs incurred in relation to this application.
