If you need more space, please attach additional pages. Please include your name, page numbers and [insert project name] Application on the additional pages

I believe that if the railway track remained level from Dublin st to beyond waitohi bridge that a 2nd underpass could go in leaving Pictons rouding system with no train crossing. The proposed Fast track new layout cuts off Broadway st which also cuts an important and busy connection Roach from businesses and residents to town. Dublin st holdups are due to Auckland st intersection mainly not trains, Waitohi Bridge holdups are due to trains, Broadway st is the only relief valve or alternative crossing of town whom Road works, accidents, Green, Police need access if either other is blocked. The proposed route from Broadway and Market st is going to add frustration & congestion onto local streets instead of improving them.
